State-of-the-art POS solutions and peripherals

Since 1990, Partner Tech has been a leading global developer and manufacturer of PC-based point of sale systems and peripherals. To satisfy constantly changing demands for better POS technologies, Partner Tech designs its solutions with cuting-edge functions and features for all types of POS applications and environments, whether compact all-in-one systems or mobile ordering terminals.

To achieve state-of-the-art POS solutions and peripherals, Partner Tech's production is held to the highest industrial standards. This includes component selection, circuitry development, mechanical construction, and housing design. Before products go into mass production, Partner Tech performs all required international tests for safety and conformity. As a result, Partner Tech can make the following product longevity and quality guarantees:

▶ Product warranty up to 5 years *Subject to terms and conditions ▶ Parts availability of 7 years ▶ 60,000 hours of MTBF (Mean Time Between Failures) ▶ 100% component derating to enable longer lifetime

Partner Tech is committed to achieving and maintaining a quality target of 1000 DPPM (Defective Parts per Million), and all steps of production are subject to a continuous improvement process (CIP).
