EM-31O (M3w-2)

MOBILE POS TECHNOLOGY IN AN ENTERPRISE TABLET

The EM-31O (M3w-2) Enterprise Tablet offers powerful mobile POS technology designed especially for retail and hospitality environments. This high-performance, rugged device and its integrated peripherals work with all leading POS software applications and can boost efficiency and profitability.

POS Base Adds Utility

While the EM-31O (M3w-2) works well as a mobile, handheld device, its POS base options give it the flexibility to be a countertop POS terminal. Base options have multiple I/O ports for connection to a printer, cash drawer, Ethernet, and peripherals such as the CD-722O customer display. A key lock secures the tablet in place. Adjustable viewing angles meet the needs of cashiers and customers, and the premium base can flip 180° for customer signatures.

Built Tough for Busy Environments

This tablet is ready for the most demanding environments. It has an IP54 sealing rating, which means it is highly resistant to dust and moisture, including spills that sometime occur in busy retail stores or restaurants.

SPECIAL FEATURES

- Windows 1O IoT LTSC
- Intel APOLLO LAKE CPU platform
- Wireless communication capabilities
- IP54
- Easy all-day use for indoor and outdoor
- Variable and flexible functionality by options

OPTIONAL

- 2D Barcode scanner
- Encryption-capable MSR, EMV reader, Bio reader, NFC reader
- WWAN communication
- POS Base
  (Charging, LAN, USB, Cash drawer and Com port)
