SOLUTIONS FOR RETAIL & HOSPITALITY

Partner Tech provides reliable and high-performance point-of-sale (POS), self-checkout, and kiosk solutions designed for a wide range of industries. More than just a POS innovator, we specialize in customizing solutions to meet the unique needs of each business, ensuring seamless integration and maximum efficiency.

Retail

Partner Tech offers a complete suite of retail solutions, including state-of-the-art POS terminals, mobile solutions, advanced kiosks, and self-checkout systems. Our technology goes beyond transactions—it enhances the customer experience with fast, efficient processes and seamless support for multiple payment options. Additionally, our cutting-edge digital signage solutions are designed to elevate brand presence and drive engagement. These dynamic displays not only boost visibility but also attract foot traffic and increase sales.

From Quick Service to Fine Dining Restaurants

Elevate your business with Partner Tech's powerful POS and self-service kiosk solutions, designed to excel in the fast-paced hospitality industry. Our self-ordering kiosks streamline operations in quick-service restaurants, while our purpose-built POS terminals and tablet solutions empower staff in restaurants, cafés, and bars with seamless order management, exceptional customer service, and fast, secure payment processing. Additionally, Partner Tech enhances the guest experience with customer-facing displays and dynamic digital signage, perfect for interactive menus, brand storytelling, and promoting special offers.

Stadiums & Event Venues

Sports and concert-goers desire efficient service to avoid missing any action. Partner Tech's POS terminals and self-service kiosks are designed for stadiums and event venues, featuring user-friendly touchscreens and robust processors for swift transactions. Our durable, fanless hardware resists damage from dust, dirt, spills, or impacts common in busy venues. Additionally, Partner Tech provides advanced stadium digital signage that not only conveys information but also serves as potent tools for brand promotion, special offers, and creating an engaging atmosphere.

Cruise Ships

Partner Tech's POS solutions for cruise ships combine sleek elegance with robust durability. Housed in sturdy aluminum enclosures, they offer both protection and secure mounting, ensuring stability on large-capacity vessels. Designed with space efficiency in mind, their modern, compact form keeps counters uncluttered—perfect for confined onboard environments. Engineered for high-performance, these systems process transactions swiftly and reliably, even during peak passenger traffic, enhancing both efficiency and the guest experience.

Movie Theaters

Enhance your theater operations with Partner Tech's efficient POS and kiosk solutions. Our space-saving terminals seamlessly manage ticketing, payments, gift cards, ticket validation, and food orders—all while maximizing counter space. Built for durability, they withstand the rigors of concession stands, including occasional spills. Elevate the moviegoing experience even further with Partner Tech's dynamic digital signage, creating an engaging and immersive atmosphere throughout your theater.

All-In-One POS Terminals

Experience the power and durability of Partner Tech's all-in-one POS solutions, elegantly designed to enhance the aesthetics of your checkout area without sacrificing performance. These user-friendly POS terminals ensure swift and efficient service, offering exceptional value for your business with up to 5-years warranty on some models.

ALL-IN-ONE POS TERMINALS

Audrey II (A4-2/ A5-2/ A7-2)

Enterprise POS for Retail & Hospitality

- Windows 10/11 & Linux Ubuntu 22.04
- 15"/15.6"/21.5" full HD anti-glare
- On-cell touch, optically bonded display
- Ultra-thin bezel
- Front panel IP65, whole device IP54 certified
- High-performance Intel Meteor Lake/ Alder Lake-N/ Elkhart Lake/ Tiger Lake CPU
- High-speed M.2 PCIe SSD with up to 1 TB
- Support for Wi-Fi 6E
- USB-C connector
- Powered USB (option)
- Support for up to three displays (staff-facing, customer-facing, digital signage)
- MSR, EMV reader, camera, 2D barcode reader, fingerprint reader, NFC reader
- Guest-facing displays: 2x20, 10.1", 15.6"

ALL-IN-ONE POS TERMINALS

Audrey A4 / A5 / A7

An Icon of Style and High-Performance

- Windows 10/11 & Linux Ubuntu 22.04
- 15"/15.6"/21.5" all-in-one touch POS with full HD
- Front Panel IP65-rated, entire unit IP54-certified
- High-performance Intel Alder Lake-P, Elkhart Lake, Alder Lake-N CPU
- High-speed M.2 PCIe SSD with up to 1 TB
- Support for Wi-Fi 6E
- USB-C connector
- Powered USB (option)
- TPM 2.0 support
- Support for up to three displays (staff-facing, customer-facing, digital signage)
- MSR, EMV reader, camera, 2D barcode reader, fingerprint reader, NFC reader

Packed with power, the Audrey Series is an all-in-one touchscreen POS computer that combines top performance and sleek, minimalist design. Its compact footprint maximizes counter space, keeping it clutter-free with concealed cables. The modular design, offers various processors, memory sizes, and storage options, along with a wide range of payment and POS peripherals. Audrey is spill-proof, boasts a durable fanless design that shields it from dust and debris, and enhances resistance to shocks and vibrations.

ALL-IN-ONE POS TERMINALS

Grace G4 / G5

The Smart Investment

- Windows 10/11 & Linux Ubuntu 22.04
- 15" or 15.6" PCAP touch full HD, all-in-one POS terminal
- Smart flip-over design
- IP54-certified
- High-performance Intel Alder Lake-P, Elkhart Lake, Alder Lake-N CPU
- High-speed M.2 PCIe SSD
- TPM 2.0 support
- Support for two displays (main display + HDMI)

Grace is an all-in-one touchscreen POS terminal, packed with power in a compact and modern form factor and an excellent value for small and medium-sized retailers and restaurants. Based on powerful Intel processors and support for Windows, Grace is ready to do the job. G4 has a 15-inch touchscreen with traditional 4:3 ratio, ideal for retail, hospitality and food & beverage while G5 has a wider 15.6-inch display with 16:9 ratio that allows the content on the screen to be re-arranged in multi-zone mode, supporting kitchen display, surveillance, queuing, or even a business dashboard. The smart flip-over design makes Grace a versatile POS terminal for hybrid use.

ALL-IN-ONE POS TERMINALS

Joy J14

Compact Touch POS Terminal

- High-performance Intel Elkhart Lake, Alder Lake-N CPU
- Fanless design
- 14" PCAP display
- Smart flip-over design
- HDMI 1366 x 768 @ 60Hz
- High-speed M.2 SSD
- Support for Wi-Fi 6E
- USB-C connector
- Support for TPM 2.0
- Windows 10/11 & Linux Ubuntu 22.04
- IP65-rated front panel protects from spills

The Joy J14 is a compact 14-inch POS terminal featuring a versatile flip-over design for hybrid use. Effortlessly switch between cashier-facing and self-order terminal modes. Powered by a robust Intel processor, it delivers fast response times and is ready to handle any application with ease.

ALL-IN-ONE POS TERMINALS

Cleo C10

Compact, All-in-One POS

- 10.1" LCD touch display
- Intel Elkhart Lake, Alder Lake-N CPU
- Windows 10/11 & Linux Ubuntu 22.04
- Support Wi-Fi 6
- Embedded 80 mm thermal printer
- Embedded peripheral options: encrypted MSR, EMV reader, NFC reader, fingerprint reader

Cleo C14

Compact, All-in-One POS

- 14" LCD touch display
- Intel Elkhart Lake, Alder Lake-N CPU
- Windows 10/11 & Linux Ubuntu 22.04
- Support Wi-Fi 6
- Embedded 80 mm thermal printer
- Embedded peripheral options: encrypted MSR, EMV reader, NFC reader, fingerprint reader

Efficient and robust, Cleo is an all-in-one POS terminal that combines space-saving design with a built-in receipt printer, optional customer-facing display, and integrated peripherals for preferred payment methods. The cleverly designed base conceals cables, ensuring a clutter-free checkout counter. Equipped with a built-in thermal printer, optional readers for magnetic stripe, EMV chip, NFC contactless payments, and a fingerprint sensor, the base enhances functionality. The main touch display, with adjustable viewing angles, attaches to the base, as does the optional customer-facing display. Additional peripherals, like a handheld scanner or payment terminal, can be connected through ports at the base's rear. Cleo is compatible with Windows 10/11, Android 12, and Linux Ubuntu.

Android POS Solutions

Android POS solutions are not only easy to use and customize, but they also offer a familiar user experience to the majority of the workforce. Our user-friendly Android solutions keep your staff connected to mission-critical business applications to ensure fast, efficient, and accurate service.

ANDROID POS SOLUTIONS

Audrey II (A5-2-R)

Android-Based POS terminal

- 15.6" PCAP, full HD, anti-glare display
- On-cell touch, optically bonded display
- Ultra-thin 7 mm bezel
- Rockchip RK3399 processor (Dual Cortex-A72 + Quad Cortex-A53, 64-bit)
- Android 14 GMS certified
- USB-C connector
- Front panel IP65, whole device IP54 certified
- Support for Wi-Fi 5
- Encryption-capable MSR, EMV reader, NFC/RFID reader, fingerprint reader, camera, 2D barcode reader, customer displays

Audrey II features the powerful RK3399 processor and the latest Android 14 operating system, delivering unparalleled performance with swift multitasking and robust application support. Engineered for performance and reliability, this cutting-edge terminal delivers lightning-fast processing capability, ensuring seamless transactions for an enhanced customer experience.

Audrey A5 / A7 *ICON of Style and Strength*

- 15.6" 16:9 / 21.5" 16:9 All in one POS with FHD resolution and PCT
- ARM Rockchip RK3399, Dual-core Cortex-A72 + Quad-core Cortex-A53
- Android 11 Operating System
- Maintenance and Service Friendly Design
- Slim and Stylish Design for retail and hospitality
- Optional peripherals: encryption-capable MSR, EMV reader, NFC, BIO reader, camera, 2D BCR

The AUDREY series is reflection of Partner Tech's future vision of the POS with complementary stylish features and innovative design. A technology rich solution that offers industrial grade performance with a high-quality design will make a dramatic statement in your store's environment.

The AUDREY Android series is an Android-based POS solution with the slim and sleek look distinguishes itself from traditional POS.

ANDROID POS SOLUTIONS

Cleo C10 / C14

All-in-One Compact POS

- 10.1" / 14" PCAP touch display
- All-in-one compact POS
- RK3576 Quad Cortex-A72 + quad Cortex-a53 up to 2.3 GHz
- Android 15 GMS certified
- Wi-Fi 6 support
- Embedded 80 mm thermal printer
- Encryption-capable MSR, EMV reader, NFC, fingerprint reader

Packed with power, Cleo delivers top performance in a compact, minimalistic design that elevates the checkout experience in retail and hospitality. The C10 & C14 Android versions are built on the latest ARM-based technology and Android 15 GMS certified. The powerful processor, a built-in thermal printer and a large variety of peripherals, ensure that Cleo is capable of high-speed data processing and responsiveness in any user scenario.

ANDROID POS SOLUTIONS

Solo10

SoftPOS Ready All-in-One POS Terminal

- 10"+ 4" PCAP touch display
- Qualcomm QCM6125 processor (Octa-Core 2.0GHz)
- Android 13 GMS certified
- SoftPOS ready
- Built-in NFC & 80mm Thermal Printer
- e-SIM (option)

Sofia5

The Ultimate Android POS Terminal

- 15.6" PCAP touch display
- Rockchip RK3576 processor (Octa-Core 2.2GHz)
- Android 14 GMS certified
- SoftPOS ready
- Rich I/O port for different scenarios
- MSR, Financial reader: EMV+ NFC (only work with 10.1" customer display), 10.1" or 15.6" customer display (factory option)

Industrial Computers

Industrial computers designed for Point of Sale (POS) environments are a game-changer in the retail landscape. Engineered to withstand the rigors of continuous operation, these robust systems ensure uninterrupted and efficient transaction processing. Their rugged and compact design makes them ideal for any type of environment that would benefit from a stable and high-performance computing solution.

INDUSTRIAL COMPUTERS

ALFA Mini

ALFA Pro

ALFA Series

Compact Industrial Computer

- Three Models: ALFA, ALFA Pro (4 x powered USB) and ALFA Mini (ultra-slim, low profile design)
- Windows 11/10 & Linux Ubuntu 22.04
- High-performance Intel Meteor Lake/ Alder Lake-N/ Elkhart Lake/ Tiger Lake CPU
- Fanless design for durability
- Two front-facing USB ports
- Up to 1 TB M.2 PCIe SSD
- Up to 32GB DDR4 DRAM
- Power USB (option)
- Durable die-cast aluminum casing

A compact industrial computer, specially designed for demanding retail and hospitality applications, featuring a fanless, noise-free computer with a large selection of ports to connect POS peripherals, displays and digital signage.

ALFA Max Series

High-Performance Industrial Computer

- ALFA Max & ALFA Max Pro (4 x powered USB)
- Windows 11/10 & Linux Ubuntu 22.04
- High-performance Intel Alder Lake-S
- Supports 2 SATA SSDs
- Supports 2 LANs (IEEE 802.3 10/100/1000 Mbps)
- TPM 2.0 support
- Power USB (option)
- Durable die-cast aluminum casing

The ALFA Max system is designed to support two Solid State Drives (SSD), ensuring lightning-fast data access and storage capabilities. With dual LAN ports, you can count on enhanced network connectivity and reliability, meeting the demands of modern computing applications. Powered by the latest Alder Lake CPU, ALFA Max delivers unparalleled processing performance.

POS Peripherals

Partner Tech offers everything you need to create an optimal POS solution. Just like our entire product line, our peripherals are carefully crafted to precisely meet the unique requirements of your business and applications.

- Cash drawers
- Customer displays
- Receipt printers
- Printer stands
- Expansion boxes

CoCo

A Sleek, Contemporary Customer Display

- 10.1" full HD display provides an unparalleled viewing experience
- Ultra slim bezel
- Sleek, modern design
- Available with two different desktop stands for placement closer to the customer
- Can be mounted directly on a Partner Tech POS terminal
- Optional payment module with support for MSR, EMV and contactless

CoCo is elegant customer display that elevates your visual experience with a state-of-the-art 10.1" full HD second, customer-facing display that is available with several different desktop stands or it can be mounted on one of Partner Tech's POS terminals. The genius solution redefines clarity and precision and is available with two different base options.

SMART EXTENSIONS

EX-300

I/O Expansion Box for Partner Tech POS

- supports standard 75 x 75 VESA & wall mount

PRINTER STAND

PS-103/PS-107 *Cosmo Printer Stand*

- Aluminum construction 75 x 75 standard VESA mount
- Compatible with Partner Tech A4/A5/A7/E5/G4/G5/J14
- Supports the main display + one customer display
- Supported printers: Partner Tech RP-700/ RP-710/ Epson TM-T70/ Star mC-Print3
- One single power source
- Optional USB hub with four powered USB ports
- Supports secondary storage and RAID function (subject to POS terminal function)
- Dimensions (W x H x D) :
PS-103: 225 x 390 x 270 mm / 8.86 x 15.35 x 10.63 in
PS-107: 732 x 324 x 272 m / 28.82 x 12.76 x 10.71 in

The PS-103/PS-107 is a sleek printer stand designed to complement Partner Tech's all-in-one POS terminals. With a modern silver and black design, it seamlessly blends into POS environments, providing stability for the printer and VESA-mounted POS terminal. The stand conceals all cables for a clutter-free counter space and offers the convenience of accommodating a USB hub with four powered USB ports.

SELF-CHECKOUT

AI-Powered Theft Protection Modular & Sleek Design

Partner Tech's cutting-edge SCO solutions combine intuitive, space-saving design with smart AI-driven fraud prevention. These comprehensive solutions offer everything you need, including SCO hardware, peripherals, and software with an API tool kit for integration with the retailer's POS system. In addition, Partner Tech offers implementation services and diagnostics with real-time SCO monitoring to proactively track the performance of the system.

SeeYourSCO – Real-time KPI Monitoring & Management

Partner Tech offers the capability to track and manage all the self-checkout stations remotely – in real-time. This allows merchants to proactively monitor the system's KPI metrics in real-time and quickly identify issues. This is mission critical to minimize downtime, increase usage and prevent fraud.

AI-Powered, Modular & Design Forward

Card Payments
Brackets are available for leading payment terminals

Cash Module (optional)
with bill & coin recycling

Starling SCO

Fully Integrated Self-Checkout

- Fully integrated SCO
- 15.6" or 21.5" display
- Camera for item identification
- Surveillance camera
- Security scale for weight verification
- Age verification camera
- Bioptic 1D/2D scanner with produce scale
- Electronic Article Surveillance (EAS)
- Brackets for payment terminal
- Cash management option
- LED tri-light pole

A fully integrated, AI-driven self-checkout solution that has everything you need in a compact and modern design. Customizable with different display sizes, security features, color options and peripherals.

SELF-CHECKOUT

Alfred SCO

Universal Tabletop Self-Checkout

- Windows 10/11 & Linux Ubuntu 22.04
- Tabletop installation
- 15.6" or 21.5" display
- Camera for item identification
- Surveillance camera
- Security scale for weight verification
- Age verification camera
- Bioptic 1D/2D scanner with produce scale
- Electronic Article Surveillance (EAS)
- Brackets for payment terminal
- Cash management option
- LED tri-light pole

A modular self-checkout solution with a universal tabletop mount that can be installed on any type of counter. Customizable with different display sizes, security features, and peripherals.

Paula II SCO

AI-Powered Self-Checkout

- Windows 10/11 & Linux Ubuntu 22.04
- 21.5" or 15.6" PCAP touch display
- AI-powered camera for item identification, surveillance, and age verification
- Security scale for weight verification
- Built-in 2D barcode scanner and thermal printer
- Electronic Article Surveillance (EAS)
- LED tri-light pole

Paula II is a compact, all-in-one SCO kiosk designed for convenience stores, micro markets, and other smaller retail stores with limited space that want to offer self-checkout. Its sturdy countertop design allows for easy installation directly on top of an existing counter, with all components seamlessly integrated into a single device. Paula helps boost checkout efficiency, enabling one employee to assist multiple customers at once, increasing overall capacity and streamlining operations.

Interactive Kiosk Solutions

Empower your customers with the convenience of self-service kiosks for use in retail, food service, lodging, healthcare, transportation, government, gaming, and hospitality. Partner Tech's family of space-saving kiosk solutions, includes countertop, floor-standing, wall mounted as well as double-sided kiosk models, designed to address diverse requirements and budgets. Our kiosks come in display sizes ranging from 15 to 32 inches and can be configured with different processors, memory sizes, and peripherals to cater to different needs.

INTERACTIVE KIOSK SOLUTIONS

K27 II

Single & Double-Sided Kiosk

- Bright 27" (1920 x 1080) PCAP touch display
- Wall mount or floor stand
- Single or doublesided operation
- Support for Windows 10/11 & Linux Ubuntu 22.04 and Android 11
- Fanless, high-performance CPU (Windows – Elkhart Lake, Alder Lake) (Android – Rockchip ARM RK3399)
- Multiple payments options (MSR, EMV and contactless)
- Customizable and modular design
- ADA keypad (option)
- Color, shape and appearance customization service

Cut labor costs, reduce wait times, and increase efficiency with Partner Tech's K27 II kiosk—perfect for quick-service restaurants, hospitality, and retail environments. Its sleek, space-saving design is available in both wall-mount and floor-stand configurations, with an optional double-sided setup for even greater flexibility.

The K27 II is built for adaptability, featuring a 3-inch thermal printer and a range of customizable peripherals, including a 2D barcode scanner, EMV terminal brackets, a 8MP camera, an RFID/NFC reader, an ADA keypad, and LED indicator lights. Designed for reliability and minimal downtime, its rugged, lockable enclosure protects against damage, while modular components make maintenance easy and cost-effective.

INTERACTIVE KIOSK SOLUTIONS

Countertop Stand OR
Floor Stand Extension

Alfred AD-215/156

Self-Service Kiosk

- 21.5" or 15.6" full HD anti-glare PCAP touch display (portrait or landscape)
- Windows 10/11 & Linux Ubuntu 22.04 and Android 11
- Intel Elkhart Lake & Alder Lake (Windows)
- Rockchip RK3399 (Android)
- Countertop / floor stand / VESA wall mount
- Built-in printer & payment capabilities
- MSR, ADA keypad, payment terminal brackets, 2D barcode scanner, 8MP camera, RFID/NFC reader, LED status indicator (options)
- Wi-Fi and BT connectivity (options)

The Alfred AD-215/156 self-service kiosk simplifies ordering and checkout for quick-service restaurants and convenience stores while enhancing self-check-in at doctors' offices, corporate offices, and hotels. Available with a 15.6- or 21.5-inch PCAP touchscreen, it comes equipped with an integrated thermal printer and a full suite of POS and payment peripherals. Designed for maximum flexibility, Alfred's sleek, space-saving design supports floor-standing, countertop, and wall-mounted installations, seamlessly adapting to any environment.

Alfred AD-215-H

Hotel Self-Service/Check-in Kiosk

- 21.5" full HD anti-glare PCAP touch display
- Windows 10/11 & Linux Ubuntu 22.04
- Intel Alder Lake & Elkhart Lake CPU
- High speed M.2 PCIe
- OCR scanner for verification of ID documents
- Hotel key dispenser
- Countertop / floor stand
- NFC/RFID reader, cash module, body temperature measurement, payment bracket, information rack, camera, LED status indicator (options)

The AD-215-H is a powerful 21.5" self-service kiosk designed to enhance efficiency, durability, and flexibility in hotel check-in and check-out. By eliminating long lines, it offers guests a faster, more convenient, and private experience. Equipped with multiple payment options and interactive features, the AD-215-H ensures seamless customer engagement. Its integrated high-quality OCR scanner enables accurate ID verification, streamlining the check-in process for a smooth and hassle-free arrival.

INTERACTIVE KIOSK SOLUTIONS

Alfred PS-137

Self-Service Kiosk

- 21.5" full HD anti-glare PCAP touch display
- Intel Alder Lake/Elkhart Lake or Rockchip processor
- Windows 10/11 & Linux Ubuntu 22.04 and Android 11
- Ethernet, Wi-Fi 6 and BT connectivity
- Integrated 3-inch thermal printer
- 2D barcode reader
- Payment terminal bracket (option)
- ADA keypad (option)
- Color LED indicator option (option)

Maximize your floor space with PS-137, an elegantly designed, space-saving self-service kiosk in our popular Alfred family. Its even sleeker and more compact than the other kiosk models, and the brushed metal finish ensures it seamlessly fits into any environment, from retail stores and restaurants to movie theaters, medical offices and corporate spaces. The kiosk's customizable peripherals allow it to adapt to a wide range of business needs.

Paula II

Quick & Easy Self-Ordering

- 21.5" or 15.6" full HD anti-glare PCAP touch display
- High brightness display (up to 500 nits)
- High-performance Intel Alder Lake and Elkhart Lake CPU
- Windows 11 IoT LTSC 24H2 (64bit) & Ubuntu 22.04
- Integrated 3-inch thermal printer
- High-performance barcode scanner
- Adjustable screen angle to accommodate for different countertop heights
- Wi-Fi and BT connectivity (options)
- MSR, ADA keypad, payment terminal brackets, 8MP camera, RFID/NFC reader, LED status indicator (options)

Paula II is a compact, all-in-one kiosk designed for quick service restaurants, coffee shops, tea stores, and other businesses in the food service industry that want to offer the convenience of self-ordering. Its sturdy countertop design allows for easy installation directly on top of an existing counter, with all components seamlessly integrated into a single device. Paula helps boost order efficiency, increasing overall capacity and reducing wait times.

Digital Signage Solutions

Interactive, dual-sided, transparent, or thin bezel — Partner Tech covers all of your digital signage needs for any space or venue. Our broad selection of digital displays paired with X-Sign, Partner Tech's digital content management solution enables our customers to find the right solution for them.

Digital Signage Overview

- Video wall: 43", 55"

Features Overview

- Cloud platform with a versatile expansion framework provides flexibility and full scalability
- A turnkey digital signage solution with hardware, software, and services
- Remote central management via the cloud
- Internet of Things (IoT) and big data analytics provides a 360-degree view of the performance.
- Create and publish dynamic content with X-Sign digital signage solution

An Industry Leader in Product Development

For years, Partner Tech has led the POS industry, setting benchmarks in innovation that others have followed. We take pride in pioneering several industry firsts, including:

- The first all-in-one POS with an integrated printer
- The first compact touch terminal
- The introduction of fanless POS technology to protect internal components from dust and debris
- The first POS base for enterprise tablets, transforming them into full-function retail solutions
- AI-powered self-checkout solutions for a smarter, more efficient shopping experience

Our commitment to innovation continues as we develop cutting-edge solutions that streamline operations and enhance customer experiences.

OUR PROMISE FOR THE FUTURE

At Partner Tech, innovation is at the core of everything we do. To strengthen our research and product development capabilities, we became part of the \$62 billion Qisda Group, a global leader in ODM/OEM electronics. This strategic alliance provides us with access to 120 expert engineers and a state-of-the-art 500,000 square-meter production facility, giving us a strong competitive edge.

Our dedicated R&D teams work tirelessly to develop cutting-edge solutions that keep pace with the ever-evolving retail and restaurant industries. Beyond innovation, we are deeply committed to social responsibility and sustainability. Environmental preservation is embedded in our production and operations—from supply chain management to transportation and manufacturing. We prioritize resource conservation and responsible practices, ensuring that our efforts align with the values of our customers, partners, suppliers, and employees.

At Partner Tech, we believe that innovation and sustainability go hand in hand, shaping a future that respects both our planet and the generations to come.

Partner Tech Product Lifetime, Quality and Industrial Standards

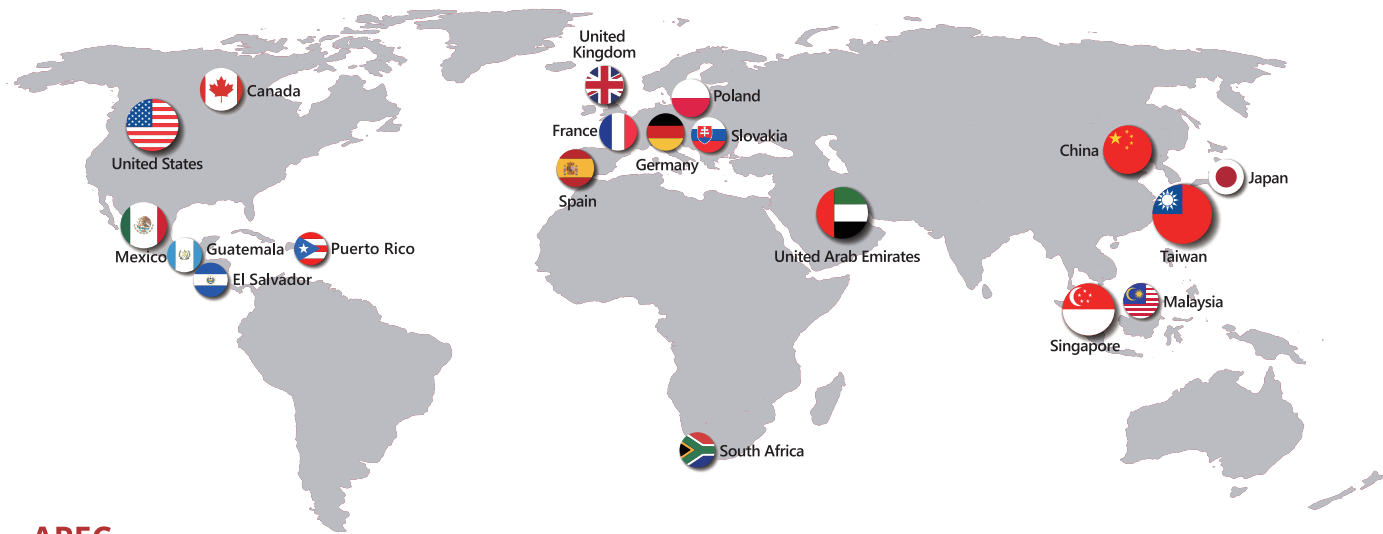

Established in 1990, Partner Tech boasts nearly 35 years of expertise as a leading innovator and manufacturer specializing in Android- and Windows-based point-of-sale terminals and peripherals. Over the years, we've expanded our offerings to include kiosks, self-checkout systems, tablets, mobile computers, and digital signage. Complementing our hardware, we provide value-adding solutions such as AI-based fraud prevention software, cloud device management, Wi-Fi optimization, and global fiscalization software, enhancing the overall ROI of Partner Tech's POS and self-service solutions.

With a track record of almost two million POS terminals shipped and over 100,000 customers globally, Partner Tech stands as a trusted advisor in the global POS market. Our commitment is further demonstrated through our up to 5-year product warranty, solidifying our dedication to providing reliable and long-lasting solutions for our customers and partners.

- Up to 5-year product warranty
- 7 years' of part availability
- 60,000 hours of MTBF (Mean Time Between Failures)
- 100% component derating to enable long lifetime

Partner Tech is dedicated to achieving and sustaining a high-quality standard of 1,000 DPPM (Defective Parts per Million). Our entire production process is subjected to a continuous improvement process (CIP), ensuring a commitment to ongoing enhancements in quality and efficiency.
